Online Key Control & Transfer System

If you are a private person or juristic person (business) who owns a fleet of vehicles (2 or more) you need a system of driver nomination.

In the event of a fine and demerit points it is imperative to transfer the fine and the points onto the infringer (driver of the vehicle).

This needs to be done legally, on the correct documentation and in the short time frame set out by the AARTO ACT.

UneedSAM

How does UneedSAM work?

If you own or manage vehicles you can have a profile on UNS with a USERNAME and PASSWORD.

Please log in

Client Fleet Stock Controller

Log in

[Forgot Password?](#)

This works with a SMARTPHONE
or on a PC DESKTOP

Packages to suit your needs!

All your fleet vehicles will be listed on your profile:

Vehicles

ND 4567	Honda
ND 8910	Ford
ND 5598	Vespa

You can **add a vehicle** by clicking on the WhatsApp link, send a picture of the licence disc and within moments the vehicle will be uploaded.

Please make a scan or photo of the vehicle's disk and then send it by WhatsApp to [0605296394](https://wa.me/0605296394), or tap the WhatsApp logo below.

Family, friends or employees can have a personal profile on UNS.

They do this by entering their details on the link provided on UNS and filling in all the necessary information required by AARTO, which includes a clear copy of their driver's license.

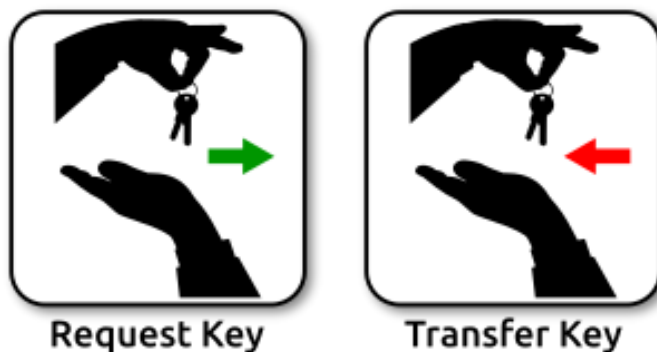

Join UneedSAM

This is FREE the way it should be.

We will then issue them with a USERNAME and PASSWORD once their driver's license is validated.

Once both parties have a profile on UNS vehicles can be transferred between the two and third parties (who also have a profile).

UneedSAM keeps history of all these transactions:

You can filter key movements by entering a [Date](#), [Vehicle Make](#) or [Licence Plate Number](#).

Enter date: or

- **2021-05-06 15:26:39**
ND [REDACTED] FORD ECOSPORT
Transferred from Private client S [REDACTED] EZ to
Private client A [REDACTED] DLMAN
- **2021-04-15 09:13:32**
ND 056 TRADE TRADE
Transferred from Stock controller S [REDACTED] to
Private client AD [REDACTED] IAN
- **2021-04-15 09:02:58**
ND 805433 RENAULT NEW KWID
Transferred from Private client AD [REDACTED] MAN

With this information any FINE / INFRINGEMENT can quickly be searched against this history and the rightful driver identified.

This fine can then be RE-DIRECTED with AARTO to ensure the demerit points (and fine) are assigned to the correct INFRINGER.
